- All STING Glider Kits come complete with full size plans, 6lb/cuft contest grade wood and a STING decal
- The 18" doubles as a hand launch or a catapult launch. (Kit includes the STING launcher and rubber)
- The 24" and STING MAXIMA 30" have built-up wings with Polyspan covering included. (Polyspan is several times stronger than tissue)
- Fuselage includes top quality Lenytube, tapered carbon fibre, tail booms
- **NOTE that a DT activator is required** (except STING jnr 15) as the fuselage pivots behind the wing. A Cool Tube or the NEW Smoothie DT timers are recommended
- Kits include an excellent article called "Hand Launched Gliders" by Kevin Moseley. The article covers construction, trimming, launching and contest flying and is a must read. Reprinted from the 36th annual report of the National Free Flight Society Symposium 2003. Kevin Mosely is the editor of the only world wide newsletter dedicated to free flight hand launch and catapult launched gliders called "ARM SOAR".
